

2R Donate to SACRED

When Grundfos Pumps opened their offices in South Africa a few years ago – the abject poverty in which so many live soon became apparent. The country suffers from chronic unemployment - some 50% of people live in poverty and an estimated 7 million people live in shacks.

Staff from Grundfos UK were so moved by the situation, that they set up the charity SACRED (South African Children’s Resource for Education & Development) which focuses on supporting children’s education & improving living conditions.

Grundfos are delighted to announce that Richard Finch of 2R Systems Ltd, recently made a generous donation to SACRED. 2R Systems Ltd are a office equipment company based in Leighton Buzzard and have been supplying Grundfos with scanners, printers and colour copiers for over twelve years. Richard heard about the charity through his relationship with Grundfos, “after hearing about all the amazing work that SACRED has done in South Africa, I felt it was something I wanted to be involved in. Although many great things have been achieved, there is still a lot more we can do.”

Grundfos and SACRED would like to thank Richard and 2R Systems for their generosity and support over the last decade.
